# PIONEERING HOLISTIC DISTRIBUTION

## Networking Specialist Training: Arista-Aruba-HPE

Cloud Harmonics Next-Generation Distribution and Training methodology of Educate, Engage and Enable allows us to deliver the widest range of technology training for our reseller partners. Through this training we equip attendees with the skills and expertise needed to confidently deploy, configure, support, troubleshoot and manage the products and services in their care.

We are the only HPE Global Authorized Training Center offering Aruba, HPE Switching, and Arista courses under a single roof. All classes have a live instructor leading the virtual classes that include hands on lab exercises.

### ARUBA WIRELESS CLASSES:

#### **Aruba Clear Pass Essentials (01058579)**

Explore how ClearPass delivers visibility, policy control, and workflow automation in this 5-day course.

#### **Aruba Mobility Bootcamp (01058551)**

This 5-day course delves into how the Aruba Mobility Controller can deliver seamless, integrated functionality, eliminating challenges experienced with traditional integration.

#### **AirWave Wireless Management Suite (01058586)**

Discover how to install and use the AirWave Wireless Management Suite.

#### **Implementing Aruba WLAN (IAW) 8, Rev. 17.21 (01089598)**

Learn how to use Aruba hardware and ArubaOS to install and build a complete, secure controller network.

#### **Scalable WLAN Design & Implementation (SWDI) 8, Rev. 17.31 (01089601)**

Get the skills and practical experience required to set up and configure advanced features on Aruba WLAN.

### ARISTA SWITCHING CLASSES:

#### **Introduction to Arista (Free)**

Gain an understanding of Arista switches and the Arista advantage with this short 2-hour course.

#### **Foundations of Arista (Voucher required)**

Discover how to redefine network architectures and bring extensibility to networking in this 1-day course.

#### **Arista Configuration Essentials (ACE)**

Join us for a hands-on, 3-day workshop to learn how to install, configure, manage, break-fix, and provide technical support of Arista switching products.

#### **Arista Programming Essentials (APE)**

Get up to speed on Python with a focus on Arista's eAPI, so that you can write useful automation scripts in a short period of time.

#### **Arista Linux Essentials (ALE)**

Anyone new to Linux/UNIX, or with a basic beginner understanding of Linux, will gain skills to be an effective Linux administrator, and therefore a more effective Arista network administrator.

### HPE SWITCHING CLASSES:

#### **Aruba Switching Fundamentals for Mobility (01077931)**

This 3-day course teaches you the fundamental skills necessary to configure and manage modern, open standards-based networking solutions and prepares network professionals for the HPE ATP Aruba Mobile First Solutions V1 certification exam.
